5. FINANCE DEPARTMENT  
(BUDGET OFFICE)  
2011/12 MID-YEAR REVIEW AND PROPOSED 2011/12 ADJUSTMENTS  
BUDGET  
(From the Special Mayoral Committee: 8 February 2012)

1. PURPOSE

The purpose of the report is to obtain approval for adjustments to the approved 2011/12 Medium-term Revenue and Expenditure Framework (MTREF) in terms of Section 28 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003).

2. STRATEGIC OBJECTIVE ADDRESSED

"To ensure financial sustainability."

3. BACKGROUND

The 2011/12 MTREF was approved by Council on 28 April 2011 in accordance with Section 24(1) of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) and applicable National Treasury finance management reform requirements. The Budget Time Schedule for the 2012/13 MTREF was approved by Council on 28 July 2011 and indicates the review and consideration of the adjustments required for the 2011/12 financial year during January 2011.

In proceeding with the theme for the new cycle of the political term, Consolidating Service Delivery, Accelerating Job Creation and Strengthening Foundations for a New Tshwane, a City of Excellence, the new leadership of the city had a significant role to play in focussed effective service delivery. To align with this theme, fiscal austerity measures such as the Cash-flow Management Intervention Initiative and Strategy, the Budget Policy, revenue enhancement strategies, budget principles, cash backing of reserves, and applying the funds management tool will remain in force during the 2011/12 MTREF.

This will strengthen the foundations for a greater Tshwane, a City of Excellence, which is evident by achieving for the second consecutive year an unqualified report on the financial statements.

"Things have not turned out that way." With these words, the Minister of Finance, in his third Budget Policy Statement to Parliament on 25 March 2011, was referring to the shared international expectation at this time last year, that the worst of the global financial crisis was behind us, and that the world economy was on track for a relatively smooth recovery. In fact he said: "We are living through a deep crisis that has exposed fault lines in the global economy."

The pace and progress of recovery is uncertain. Political decisiveness to enhance growth, manage sovereign debt and recapitalise banks in advanced economies, particularly in the euro currency area, is still not evident. The threat of global contagion is still with us."

The Minister, however indicated that South Africa's economic fundamentals are sound and that growth is positive, projected to reach 3,1% of GDP this year and 3,4% next year. Although this level of growth is not as vibrant as we would like, it is a base on which to build, he said.

The Minister's view for the next 5 to 10 years is that all South Africans, government, business, labour and society must focus their creative energies and determination to restructure the economy so that it will grow faster, create more jobs, spread the benefits of growth more widely and reduce inequality. To manage our fiscal trajectory in a sustainable way, in a manner that promotes faster and more inclusive growth means that we have to shift the composition of spending towards infrastructure investment, he said. An expected deficit of 5,5% of gross domestic product (GDP) this year, moderating to 3,3% by 2014/15, left no other choice but to narrow the gap between spending and revenue, but strengthening infrastructure investment for sustainable long-term growth.

In the Medium-term Budget Policy Statement, the Budget Policy Framework takes into account the uncertain economic outlook and the need to support structural transformation of the economy. It is therefore that revised baseline allocations are being prepared, based on identified savings and reprioritisation proposals. The overall impact of these adjustments is a decrease of R0,9 billion in the 2011/12 expenditure estimate of National Government.

The interconnectedness of global economies means South Africans cannot escape from the European debt crisis. It will be a rough ride with short-term implications. Experts expect the rand to depreciate by as much as 30% and lower however South Africa should begin to experience "slow but relatively impressive growth, gradually strengthening and delivering moderate yet inflation-beating returns".

The Bureau for Economic Research's business confidence index (business confidence barely changed in the 4<sup>th</sup> quarter) indicates underlying activity in all sectors, except the building industry, either improved or remained resilient. For the year the economy still looks good for growth of about 3% and about the same can be expected next year.

On 12 December 2011, the Global Credit Rating Company (GCR), announced the following credit rating outcome for the CoT:

- Domestic ZAR long term currency: A (single A).
- Domestic ZAR short term currency: A1- (single A one minus).

An A rating, means a high, good credit rating with prudent management and A1 minus, on short term, also means a high, good credit rating with stable cash liquidity. Different rating methodologies and symbols are applied by the rating companies (previously Moody's), which cannot be compared to each other according to GCR. However, it needs to be mentioned that the outlook for the city is stable according to GCR, compared to Moody's rating, which is negative.

The above mentioned platform regarding the uncertain pace of progress and recovery contributed to the fact that a very conservative approach was taken by the CoT in the compilation of the 2011/12 Mid-Year Review and Proposed 2011/12 Adjustments Budget. The CoT also endeavour to strengthen the cash flow position of the City and assist in cash backing capital reserves and provisions, unspent long-term loans and unspent conditional grants.

The contents of this report is to highlight the 2011/12 adjustments budget process and the material adjustments that were requested by departments and were necessitated in terms of legislative requirements as well as the funding of priorities as outlined in the city's five-year strategic programme, taking into consideration the implementation of the strengthened Cash-flow Management Intervention Initiatives and Strategy.

The 2011/12 Adjustments budget is funded in terms of the National Treasury funding compliance assessment however a risk is evident owing to inter alia the incorporation of the former Metsweding District Municipality, Nokeng-tsa-Taemane and Kungwini Local Municipalities and accompanying responsibilities. Furthermore it is of essence that the target collection rate of 94% (budgeted cash-flow is based on this collection rate) of the current debt be achieved in the 2011/12 financial year.

It needs to be noted that the CoT is in a process of developing an Infrastructure Investment Programme contained in a 10 year Long-term Financial Sustainability and Funding Plan up to 2020/21. This plan will guide the compilation of the 2012/13 MTREF.

Taking the budget guidelines, principles, process and recommendations into consideration and to ensure best practice, legislative compliance and ultimate sustainability within the context of affordability it is recommended that the 2011/12 Adjustments Budget be approved.

#### 4. DISCUSSION OF THE 2011/12 ADJUSTMENTS BUDGET PROCESS AND RELATED ISSUES

##### 4.1 Budget Guidelines

Section 28(2) provides guidelines on when an adjustment budget can be prepared and subsection (2)(b) to (g) stipulates the limitations as to timing or frequency.

The guidelines are as follows:

- (1) A municipality may revise an approved budget through an adjustment budget.
- (2) An adjustment budget –
  - (a) Must adjust the revenue and expenditure estimate downwards if there is material under-collection of revenue during the current year;
  - (b) may appropriate additional revenues that have become available over and above those anticipated in the annual budget, but only to revise or accelerate spending programmes already budgeted for;

- (c) may, within a prescribed framework, authorise unforeseeable and unavoidable expenditure recommended by the mayor of the municipality
- (d) may authorise the utilisation of projected savings in one vote towards spending under another vote;
- (e) may authorise the spending of funds that were unspent at the end of the past financial year where the under-spending could not reasonably have been foreseen at the time to include projected roll-overs when the annual budget for the current financial year was approved by the council;
- (f) may correct any errors in the annual budget; and
- (g) may provide for any other expenditure within a prescribed framework.

In terms of Section 72 of the MFMA the performance of a municipality must be reviewed during the first half of the financial year and the approved MTREF be revised regarding revenue projections and expenditure trends.

Section 69(2) stipulates that in the process of implementing the budget and when necessary, the accounting officer must prepare an adjustments budget and submit it to the Mayor for consideration and tabling in the Municipal Council.

#### 4.2 Budget process

The purpose of Budget Office Circular 3 of 2011: 2011/12 Adjustments Budget Process, dated 23 September 2011 was to provide guidance to the departments regarding the compilation of the 2011/12 Adjustments Budget. The circular also included the budget principles to guide departments with the submission of funding requests.

Templates for each department were created on the Q-Drive, where departments were requested to capture their requests. These templates contained approval sheets that had to be signed by the Strategic Executive Director/Departmental Head and Member of the Mayoral Committee and be submitted to the Budget Office on 10 October 2011.

The following principles guided the compilation of the 2011/12 Adjustments Budget:

- The Funded Budget requirement is to be adhered to as stipulated in MFMA Circular 42 and National Treasury regulations.
- Adjustments in revenue must be accompanied by adjustments in expenditure in the following circumstances:
  - A projected under collection/ decrease in revenue must be accompanied by a corresponding decrease in expenditure;
  - Should additional revenue be projected to be generated and/or a grant is to be received from an external source the increase in revenue may be accompanied by a corresponding increase in expenditure.
- All proposed capital adjustments must be accompanied by revised cash flow and milestone projections to ensure timely submission to the PME Unit for the compilation of the revised 2011/12 SDBIP.

- Submissions which relate to external funding sources must be accompanied by proof of confirmation from the relevant transferring department or institution.
- The 2011/12 Adjustments Budget was based on the 2010/11 Financial Statements as at 30 November 2011.

#### 4.3 Summary of Cash-flow Intervention Initiatives

It should be noted that the intervention initiatives that was implemented during the 2009/10 financial year and were still applicable in the 2011/12 financial year as was indicated in the Mayoral Committee meeting of 30 June 2010 until further notice, were strengthened by the City Manager, in his memorandum dated 30 November 2011. This will ensure that expenditure be managed in terms of priority and non-essential expenditure be curbed within specified limits towards enhancement of a positive cash-flow position. Strategic Executive Directors/Departmental Heads need to ensure at all times that the memorandum is adhered to. Furthermore the responsibilities of municipal officials in terms of Sections 77 and 78 of the MFMA, specifically regarding financial administration and management should be noted.

#### 4.4 Cash-flow position

To ensure sound financial management and sustainability over the medium to long term the cash flow intervention initiatives that were implemented during the 2009/10 financial year are still applicable and strengthened initiatives in this regard were instated by the City Manager as discussed above which will assist in the implementation of the CoT strategy towards reserves cash backing. Continuing with the intervention initiatives and determination to be successful in overcoming the financial challenges, the CoT is aiming to achieve a positive bank balance of approximately R150,0 million on 30 June 2012. The positive bank balance of R281 million as at 30 June 2011 is however the result of outstanding trade creditors who were only paid early in July 2011 (owing to the CoT banker's processes). The effective positive cash flow balance as at 30 June 2011 would therefore have been R161,4 million if the trade creditors could have been paid before 30 June 2011.

Assumptions made during the budgeting process regarding inflation, spending patterns, the impact of the recovering economy, the payment of grants, etc, can also impact on the above.

Furthermore, with the finalising of the 2005/06 to 2008/09 Conditional Grant process by 30 June 2010, the Minister of Finance granted condonation in terms of Section 170 of the MFMA for all bona fide failures to manage and report on the use of conditional grant funds paid to municipalities over the said period.

The roll-over process for the 2009/10 financial year was done in terms of Section 31 of the DoRA and approval was granted to retain an amount of R36,9 million (2010 Host Cities R10,8 million and PTIS R26,2 million). It was not required to seek approval for the FMG, RG and 2010 SWC Stadium Development Grants as these were concluded with the Minister's letter of condonation.

Additional PTIS approval was granted for R174,6 million by National treasury on 5 July 2010, after consultations between CoT, NDoT and NT. Shortly after this approval process the CoT were informed by the NDoT to stop the BRT project as they required CoT to re-design the BRT programme. This effectively derailed the capital implementation of the BRT programme and was primarily the reason for non-implementation by CoT of the PTIS funds.

At the end of the 2010/11 financial year the CoT applied to National Treasury for roll-over of the unspent conditional grants in the amount of R231,4 million and received approval for only R103,1 million, owing to the PTIS only receiving R100,0 million approval instead of R228,0 million. These approved roll-overs total amount of (R103,2 million) are included in detail in Table 6 in this report.

National Treasury indicated in a notice to the CoT that they intended to deduct an amount of R211,0 million from the next Equitable Share transfer (November 2011), being various unspent conditional grants from the 2009/10 financial year that according to their records the CoT did not receive approval for roll-over. This is a contentious issue which is being followed up with National Treasury, as there are different opinions on the matter.

The amount of R211,0 million off-set by NT against the Equitable Share transfer (unconditional grant) will negatively impact on the cash-flow position of the city. This action will however not affect the budgeted allocation, but only the Cash-flow Statement and the Statement of Financial Position (Balance Sheet), as the "Unspent Conditional Grants" are reduced with the amounts returned to the National Revenue Fund against the respective grant (ie PTIS, RG, etc). However the memorandum from the City Manager to NT in this regard disputes the deductions to the extent of R93,4 million, which the CoT requests to be returned by NT, owing to the fact that these amounts were spent in the 2010/11 financial year for committed projects. Furthermore it is anticipated that the R128,0 million unspent PTIS funds (R228,0 million minus R100,0 million roll-over granted) may be re-allocated to the CoT for the BRT programme in future DoRA allocations (the CoT is not responsible for the changes in the project, as indicated above).

#### 4.5 Strategy towards reserve cash-backing

The purpose of a strategy towards cash backing is to have separate investments (including interest earned on these investments) earmarked for specific future indefinite liabilities that may amongst others provide funding for capital reserves and provisions and repayment of conditional grants received but not spend. A phased-in approach should be followed and managed according to mid-year and year-end available resources.

Cash received from operating activities are utilised to provide working capital and to temporarily fund capital expenditure in advance of external loan draw-downs. Operational cash-flow deficits and surpluses are forecasted and managed on a daily basis within available cash resources and banking facilities.

The strategy towards cash backing of the CoT capital reserves and provisions and unspent conditional grants, as well as the taking up of long-term loans/bonds were modelled into the Long-term Financial Model (LTFM) to ensure the sustainability of the City over the medium- to long-term. The strategy is informed amongst others by relevant GRAP accounting standards, sections 18 and 19 of the MFMA and National Treasury Circular 48.

It is imperative that departments spent external funds (grant funding) received on a project first before internal funds provided by the CoT in order to prevent that any unspent external funds resort back to the National Revenue Fund.

#### 4.6 Taking up of loans/bonds

The capital budget funded from loans/bonds for the 2011/12 financial year amounts to R1,5 billion. The Council approved that this amount be obtained from the Capital Market by means of a bond issue and furthermore approved the maximum short-term debt of R1,2 billion for the 2011/12 financial year.

### 5. DISCUSSION OF THE PROPOSED 2011/12 ADJUSTMENTS BUDGET

The 2011/12 Adjustments Budget was compiled in terms of the National Treasury formats as prescribed in Government Gazette 31804 of 23 January 2009.

The Adjustments Budget and supporting documentation is attached as Annexure A, consisting of Part 1 (Adjustments Budget) and Part 2 (Supporting documentation) as indicated in the table of contents.

The proposed 2011/12 Adjustments Budget is broken into two components, namely the operating and capital budget which is discussed below.

#### 5.1 SUMMARY OF THE PROPOSED 2011/12 OPERATING ADJUSTMENTS BUDGET

The following two tables reflect the approved 2011/12 MTREF, the proposed 2011/12 Adjustments Budget (revenue by source and expenditure by type) and the subsequent outer years:

The total adjusted operating expenditure amounts to R18 051,3 million, which amounts to an increase of R172,2 million (1%) compared to the original approved amount (R17 879,1 million). The 2011/12 adjusted surplus amounts to R1 265,3 million that is R78,1 million higher compared to the original approved surplus of R1 187,2 million.

The following table summarises the proposed 2011/12 Adjustments Budget movements (increase/decrease) per department (primary budget only):

A detail list of the 2011/12 Adjustments Budget indicating revenue and expenditure by vote is available in Annexure A (Table B3). An analysis of the above table can be summarised by an increase in expenditure of R172,2 million and an increase in revenue of R250,3 million resulting in an increase of R78,1 million in the 2011/12 approved surplus.

## 5.2 2011/12 OPERATING BUDGET ADJUSTMENTS

The operating adjustments are discussed below.

### **Agriculture and Environmental Management**

## 6. COMMENTS ON THE CAPITAL BUDGET PROGRESS REVIEW SUBMISSIONS

The Mayoral Committee requested that capital budget progress review sessions be held to assess the level of capital expenditure to date with emphasis on slow spending projects and those indicating an expenditure of 30% and lower. The sessions were held on 16 January 2012 and chaired by the MMC for Finance.

Below are comments relating to the submissions as made by departments on their mechanisms and interventions for ensuring that the capital expenditure is accelerated.

Strategic Unit	Comments
Emergency Services	The department has re-prioritised funding between projects in order to maximise expenditure on the capital budget. Furthermore a report requesting additional funding to the amount of R45,0 million was attached for the purchase of fire fighting vehicles. Note must be taken that additional funding can only be allocated where savings have been identified or through the reprioritisation of functions and efficiency gains.
Sports, Recreation, Arts and Culture	Revised expenditure projections were submitted by the department in line with the remainder of the capital budget funding. The department further proposes to shift funds via the fund transfer process from underspending projects/projects that indicate slow spending - this is not supported taking into account that the project from which the saving is identified is council funded (Olievenhoutbosch Multi Purpose Sports Center) and the project to which the funding is proposed is funded from USDG (Lotus Garden Multi Purpose Sports Facility) - in terms of the approved budget policy a fund transfer can only take place between the same funding sources eg council funding to council funding, USDG to USDG (11.2.2.2.12 Fund transfers would therefore be done in a prescribed format (formal report) between individual IDP projects (WBS Level 2), within the approved Capital Programme (Vote), within the approved Funding Source, to facilitate the effective implementation of

Strategic Unit	Comments
	the capital programme). Furthermore the Mayoral Resolution of 16 November 2011 has not been implemented taking into account that approval to utilise the NDPG funding for the HM Pitje Stadium was not obtained from National Treasury - the implementation of the resolution without NT approval will have financial implications for CoT taking into consideration that this is a conditional grant.
Housing and Sustainable Human Settlements	The department has submitted revised projections in terms of the capital budget and proposed the shifting of funds via the funds transfer process between USDG funded projects. The department will have to ensure an expenditure of approximately R100,0 million per month in order to ensure that the total capital budget will be spent by year end.
Economic Development	The capital budget of the Economic Development department has been finalised.
Health and Social Development	The 3 clinics are each allocated R1,0 million of which the department has indicated will be utilized for professional fees, designs, QS and consultant fees. It is further indicated in the Memorandum that R500 000 of each of the allocations from the clinics will be transferred to Pretorius Park Pharmacy. No WBS element/project number was provided to verify if this project is in the current MTREF and there is no indication in the Memo in terms of the scope of work that will be undertaken utilising the R1,5 million to be transferred to the project.
Transport and Roads	The department proposed to revise the cash-flow and milestone projections in line with the remainder of their capital budget as well as to transfer funding to other projects where shortfalls have been identified. It must be noted that it was indicated that no transfers would be allowed from project in Region 5 and 7 to other regions taking into account the nature of the situation in those areas. The department has indicated they will not be in a position to spend the USDG funding allocated to projects (upgrading of gravel roads to tar) in the Metsweding areas as no planning for the projects had taken place and propose that these funds be moved to accelerate other spending programmes which will benefit the same communities. Furthermore it must be noted that USDG is a conditional grant of which if not spent will have financial implications for the City.

It should be noted that funds were transferred as requested by departments in order to fast-track the fund transfer process thereby enhancing the ability to increase expenditure.

## 7. COMMENTS OF THE STAKEHOLDER DEPARTMENTS

### 7.1 COMMENTS OF THE STRATEGIC EXECUTIVE DIRECTOR: CORPORATE AND SHARED SERVICES

#### 7.1.1 LEGAL SERVICES

(Unaltered)

From a perusal of the contents of the report and the recommendations pertaining thereto it is apparent that the tabling of the proposed 2011/12 Adjustment Budget is being conducted in terms of the relevant stipulations of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003), and more specific section 28 of the said Act, 2003, the details of which are more fully set out in the report. The recommendations are thus supported from a legal perspective.

## 8. IMPLICATIONS

### 8.1 HUMAN RESOURCES

None.

### 8.2 FINANCES

The implementation of this Adjustments Budget is to ensure effective and efficient financial management and business planning, aligned to deliverable key imperatives as contained in the Five-year Strategic Integrated Development Plan.

### 8.3 CONSTITUTIONAL AND LEGAL FACTORS

To ensure compliance in terms of various sections of the Municipal Systems Act and the Municipal Finance Management Act.

### 8.4 COMMUNICATION

After approval this document is provided to all stakeholders and placed on the Tshwane Public website, for information and implementation.

### 8.5 PREVIOUS COUNCIL AND MAYORAL COMMITTEE RESOLUTIONS

The 2011/12 MTREF was approved by Council on 28 April 2011 and the Integrated report on the IDP Process Plan and the Budget Time Schedule for 2011/2012 as approved by Council on 28 July 2011 are applicable.

## 9. CONCLUSION

Although the Finance Minister indicated that the worst of the global financial crisis is not behind us, South Africa's economic fundamentals are sound, and positive growth is projected. The CoT is in a process of developing a Infrastructure Investment Programme, contained in a 10 year Long-term Financial Sustainability and Funding Plan up to 2020/21, which will guide the compilation of the 2012/13 MTREF.

A very conservative approach was taken by the CoT in the compilation of the 2011/12 Mid-Year Review and Proposed 2011/12 Adjustments Budget in order to:

- Strengthen the cash flow position of the City by way of strengthened cash flow intervention initiatives.
- Assist in cash backing capital reserves and provisions, unspent long-term loans and unspent conditional grants.
- Continuing to prioritise core functions and strategic objectives to ensure that service delivery remains on track.
- Reprioritising and down scaling of, ie non-core functions.

The Adjustments Budget was prepared in terms of the guidelines contained in Section 28(2) of the MFMA and furthermore ensures that the City continues to deliver on its core mandate and identified priorities and principles, achieve its developmental goals and entails prioritising all available resources towards essential services and contractual financial commitments.

The refinement of the proposed 2011/12 Adjustments Budget, will essentially be modelled into the broader context of the city's Long-term Financial Model, informing the 2012/13 Medium-term Revenue and Expenditure Framework.

The 2011/12 Adjustments Budget is in fact laying the base for a new long term era in budgeting strategy with significant indicators such as infrastructure development and recovery.

**The Special Mayoral Committee on 8 February 2012 resolved to recommend to Council as set out below:**

**IT WAS RECOMMENDED (TO THE COUNCIL: 23 FEBRUARY 2012):**

1. That in terms of Section 28(2) of the Municipal Finance Management Act, 2003 (Act 56 of 2003) the proposed 2011/12 Adjustments Budget be approved as set out in the following tables as contained in Annexure A:
  - 1.1 Adjustments Budget Summary;
  - 1.2 Adjustments Budget Financial Performance (revenue and expenditure by municipal vote);
  - 1.3 Adjustments Budget Financial Performance (revenue and expenditure by standard classification);
  - 1.4 Adjustments Budget Financial Performance (revenue by source and expenditure by type); and
  - 1.5 Adjustments Capital Expenditure Budget by municipal vote and funding.
2. That the financial position, cash-flow, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are adopted as set out in the following tables as contained in Annexure A:
  - 2.1 Adjustments Budget Financial Position;

- 2.2 Adjustments Budget Cash-flows;
- 2.3 Cash backed reserves/accumulated surplus reconciliation;
- 2.4 Asset management; and
- 2.5 Basic service delivery measurement.
3. That the consolidated Adjustments Budget that includes the financial impact of all municipal entities as set out in Annexure A be noted;
4. That in terms of external funded projects no contracts will be allowed to commence with before funding or commitments have been received from the funding parties and contracts between these parties and the CoT have been signed; and
5. That the cash flow management intervention initiatives and strategy remain in force for the 2011/12 financial year.

**During consideration of this item by Council on 23 February 2012, the following Councillors participated in a debate:**

**Prof HF Redelinghuys  
OS Lebesse**

**Subsequently, Cllr Lebesse proposed that this item be referred to the Section 79 Oversight Committee: Finance for consideration.**

**However, Cllr SJ Mabona (Chief Whip of Council) explained that this report is submitted to Council in terms of the provisions by the MFMA and its timeframe was legislated and therefore cannot be referred to the said committee.**

**Based on the above explanation, Cllr Lebesse withdrew his proposal .**

**It was thereafter resolved as set out below:**

**ANNEXURES:**

- A. Adjustments Budget and supporting documentation (Budget document).
- B. Capital Budget per department: CoT version (National Treasury version contained in Budget document).

**RESOLVED:**

1. That in terms of Section 28(2) of the Municipal Finance Management Act, 2003 (Act 56 of 2003) the proposed 2011/12 Adjustments Budget be approved as set out in the following tables as contained in Annexure A:
  - 1.1 Adjustments Budget Summary;

## Part 1 (Adjustments Budget)

### 1.1 Mayoral report overview

In proceeding with the theme for the new cycle of the political term, Consolidating Service Delivery, Accelerating Job Creation and Strengthening Foundations for a New Tshwane, a City of Excellence, the new leadership of the city had a significant role to play in focussed effective service delivery. To align with this theme, fiscal austerity measures such as the Cash-flow Management Intervention Initiative and Strategy, the Budget Policy, revenue enhancement strategies, budget principles, cash backing of reserves, and applying the funds management tool will remain in force during the 2011/12 MTREF.

This will strengthen the foundations for a greater Tshwane, a City of Excellence, which is evident by achieving for the second consecutive year an unqualified report on the financial statements.

"Things have not turned out that way." With these words, the Minister of Finance, in his third Budget Policy Statement to Parliament on 25 March 2011, was referring to the shared international expectation at this time last year, that the worst of the global financial crisis was behind us, and that the world economy was on track for a relatively smooth recovery. In fact he said: "We are living through a deep crisis that has exposed fault lines in the global economy. The pace and progress of recovery is uncertain. Political decisiveness to enhance growth, manage sovereign debt and recapitalise banks in advanced economies, particularly in the euro currency area, is still not evident. The threat of global contagion is still with us."

The Minister, however indicated that South Africa's economic fundamentals are sound and that growth is positive, projected to reach 3,1% of GDP this year and 3,4% next year. Although this level of growth is not as vibrant as we would like, it is a base on which to build, he said.

The Minister's view for the next 5 to 10 years is that all South Africans, government, business, labour and society must focus their creative energies and determination to restructure the economy so that it will grow faster, create more jobs, spread the benefits of growth more widely and reduce inequality. To manage our fiscal trajectory in a sustainable way, in a manner that promotes faster and more inclusive growth means that we have to shift the composition of spending towards infrastructure investment, he said. An expected deficit of 5,5% of gross domestic product (GDP) this year, moderating to 3,3% by 2014/15, left no other choice but to narrow the gap between spending and revenue, but strengthening infrastructure investment for sustainable long-term growth.

In the Medium-term Budget Policy Statement, the Budget Policy Framework takes into account the uncertain economic outlook and the need to support structural transformation of the economy. It is therefore that revised baseline allocations are being prepared, based on identified savings and reprioritisation proposals. The overall impact of these adjustments is a decrease of R0,9 billion in the 2011/12 expenditure estimate of National Government.

The Bureau for Economic Research's business confidence index (business confidence barely changed in the 4<sup>th</sup> quarter) indicates underlying activity in all sectors, except the building industry, either improved or remained resilient. For the year the economy still looks good for growth of about 3% and about the same can be expected next year.

On 12 December 2011, the Global Credit Rating Company announced the following credit rating outcome for the CoT:

- Domestic ZAR long term currency: A (single A).
- Domestic ZAR short term currency: A1- (single A one minus).

An A rating, means a high, good credit rating with prudent management and A1 minus, on short term, also means a high, good credit rating with stable cash liquidity. Different rating methodologies and symbols are applied by the rating companies (previously Moody's), which cannot be compared to each other according to GCR. However, it needs to be mentioned that the outlook for the city is stable according to GCR, compared to Moody's rating, which is negative.

Prudent financial management requires certain constraints regarding expenditure to ensure sound financial management and sustainability over the medium- to long-term. The cash-flow intervention initiatives that were implemented during the 2009/10 financial year are therefore still applicable and strengthened initiatives in this regard were instated on 30 November 2011. It is furthermore imperative that the CoT continues to build strongly on this sound financial base and a very conservative approach was taken by the CoT in the compilation of the 2011/12 Mid-Year Review and Proposed 2011/12 Adjustments Budget. The CoT also endeavour to strengthen the cash flow position of the City and assist in cash backing capital reserves and provisions, unspent long-term loans and unspent conditional grants.

To ensure long-term sustainability and viability is to provide for cash-backing through separate investments (including interest earned on these investments) earmarked for specific future indefinite liabilities that may amongst other provide funding for capital reserves and provisions and repayment of unspent conditional grants. A phased-in approach will be followed and managed according to mid-year and year-end available resources.

It is imperative that departments spent external funds (grant funding) received on a project first before internal funds provided by the CoT in order to prevent own funds generated from revenue being used as bridging finance affecting the cash-flow position negatively.

The budget principles that informed the compilation of the 2011/12 Adjustments Budget is in line with Section 28(2)(b) to (g) of the MFMA and the following additional principles needs to be highlighted:

- The Funded Budget requirement is to be adhered to as stipulated in MFMA Circular 42 and National Treasury regulations.
- Adjustments in revenue must be accompanied by adjustments in expenditure in the following circumstances:
  - A projected under collection/ decrease in revenue must be accompanied by a corresponding decrease in expenditure;
  - Should additional revenue be projected to be generated and/or a grant is to be received from an external source the increase in revenue may be accompanied by a corresponding increase in expenditure.
- All proposed capital adjustments must be accompanied by revised cash flow and milestone projections to ensure timely submission to the PME Unit for the compilation of the revised 2011/12 SDBIP.
- Submissions which relate to external funding sources must be accompanied by proof of confirmation from the relevant transferring department or institution.
- The 2011/12 Adjustments Budget was based on the 2010/11 Financial Statements as at 30 November 2011.

The following changes (based on performance trends, contractual obligations, implementation of aggressive credit control measures, re-evaluation and purification of the asset register, etc) were affected:

- Depreciation and asset impairment increase – R182 635 834 (Primary cost);
- Bulk purchases increase – R115 000 000;
- Finance charges decrease – R64 344 239;
- Contracted services decrease – R40 242 466;
- Electricity revenue increase – R180 000 000;
- Sanitation revenue increase – R15 000 000; and
- Other revenue decrease – R63 603 560.

The following were included in the 2011/12 Adjustments Budget with regard to operating grants and subsidies:

- R250 576 for the Finance Management Grant for funds rolled over from the 2010/11 financial year;
- R423 000 for the HIV and AIDS Grant;
- R962 527 for an accreditation grant for Housing and Sustainable Development;
- R20 000 000 is to be received from the Provincial Government for the incorporation of the Metsweding Municipalities;
- R15 000 from the Blue Bulls Company for damages to the stadium seats incurred during the FIFA World Cup;
- R136 082 from Drakensberg promotions for Cultural Events;
- R5 600 000 for community libraries in Kungwini and Nokeng;
- R8 040 000 was received from the National Department of Public Works and an External service sponsor (R7 000 000 for the appointment of a service provider for the precinct master plan and R1 040 000 for hosting the Inner City Seminar);
- R94 488 000 was removed from the General Fuel levy to align the MTREF to the DoRA;
- R18 000 for the Water Services Operating Subsidy.

The Capital Budget was increased with R218,2 million and amounts to R3 403,6 million (approved Budget R3 185,4 million). The following adjustments were affected with regard to Internal funded (CoT funded) projects:

An amount of R82,3 million was offered as a saving (R81,3 million from Transport and Roads and R1,0 million from Economic Development). An amount of R62,3 million of the saving was allocated to the Corporate and Shared Services Department for various IT related projects. The remainder of the saving will assist with cash-flow challenges.

It needs to be noted that in terms of the MFMA funds allocated to the CoT for capital projects cannot be spent before it has been included as revenue in the operating budget. The following is a list (detailed later in this document) of the adjustments inclusions with regards to capital grants and subsidies (nett change of R218,9 million):

- Provincial Transport Infrastructure Systems Grant (PTIS): R115 057 000;
- Neighbourhood Development partnership Grant (NDPG): R37 861 813;
- Government Housing – Social Infrastructure Grant:
  - R339 839 purchase of furniture and systems;
  - R38 468 160 for the acquisition of land; and
  - R2 293 422 for the development of housing units (Delft Municipality).
- Energy Efficiency Demand Side Management Grant (EEDSM): R21 531 158;
- Municipal Finance Management Grant (FMG): R304 047;
- Community Library Services: R5 980 000;
- Department of Water Affairs (DWA): R15 597 000; and
- Other grants: R515 977.

The report accompanying the 2011/12 Adjustments Budget, indicate in detail the reasons for the adjustments budget, highlights and motivates the adjustments which culminates in the recommendations, ensure compliance to NT regulations, which all assist in overcoming hurdles and pave the road to sustainable service delivery over the medium-term.

The necessary submissions will be made to Council to consider amendments to the service delivery targets and performance indicators in the service delivery and budget implementation plan if applicable, as submitted by the relevant departments. Any revision of the service delivery plan will be made public (Section 54 of the MFMA).

It needs to be noted that the CoT is in a process of developing an Infrastructure Investment Programme, contained in a 10 year Long-term Financial Sustainability and Funding Plan up to 2020/21, to fast track backlog eradication and create additional funding in order to ease the burden on ratepayers, while still ensuring financial sustainability as one of the strategic objectives of the city. This plan will guide the compilation of the 2012/13 MTREF.

Taking the above into consideration as well as other proposals and recommendations to ensure best practice, legislative compliance and ultimate sustainability within the context of affordability it is recommended that the 2011/12 Adjustments Budget be approved.

## 1.2 Resolutions

---

1. That in terms of Section 28(2) of the Municipal Finance Management Act, 2003 (Act 56 of 2003) the proposed 2011/12 Adjustments Budget be approved as set out in the following tables as contained in Annexure A:
  - 1.1 Adjustments Budget Summary.
  - 1.2 Adjustments Budget Financial Performance (revenue and expenditure by municipal vote).
  - 1.3 Adjustments Budget Financial Performance (revenue and expenditure by standard classification).
  - 1.4 Adjustments Budget Financial Performance (revenue by source and expenditure by type).
  - 1.5 Adjustments Capital Expenditure Budget by municipal vote and funding.
2. That the financial position, cash-flow, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are adopted as set out in the following tables as contained in Annexure A:
  - 2.1 Adjustments Budget Financial Position.
  - 2.2 Adjustments Budget Cash-flows.
  - 2.3 Cash backed reserves/accumulated surplus reconciliation.
  - 2.4 Asset management.
  - 2.5 Basic service delivery measurement.
3. That the consolidated Adjustments Budget that includes the financial impact of all municipal entities as set out in Annexure A be noted.
4. That in terms of external funded projects no contracts will be allowed to commence with before funding or commitments have been received from the funding parties and contracts between these parties and the CoT have been signed.
5. That the cash flow management intervention initiatives and strategy remain in force for the 2011/12 financial year.

### 1.3 Executive Summary

---

In terms of Section 72 of the MFMA the performance of a municipality must be reviewed before 25 January of each financial year and as part of the review the accounting officer must recommend whether an adjustments budget is necessary and recommend revised projections for revenue and expenditure to the extent that this may be necessary.

In general, the aim with the compilation of the 2011/12 Adjustments Budget, is to further prioritise and implement conservative expenditure strategies, following the belt tightening measures introduced in 2009 which remained in force and has been strengthened by the City Manager during November 2011. This will ensure that expenditure be managed in terms of priority and non-essential expenditure be curbed within specified limits towards enhancement of a positive cash-flow position. Strategic Executive Directors/Departmental Heads need to ensure at all times that the memorandum with regard to the tightened measures are adhered to. Reprioritising and down scaling of, ie non-core functions will uphold service delivery towards core functions on a sustainable level.

A very conservative approach was taken by the CoT in the compilation of the 2011/12 Mid-Year Review and Proposed 2011/12 Adjustments Budget in order to:

- Strengthen the cash flow position of the City by way of strengthened cash flow intervention initiatives.
- Assist in cash backing capital reserves and provisions, unspent long-term loans and unspent conditional grants.
- Continuing to prioritise core functions and strategic objectives to ensure that service delivery remains on track.
- Reprioritising and down scaling of, ie non-core functions.

The Adjustments Budget was prepared in terms of the guidelines contained in Section 28(2) of the MFMA and furthermore ensures that the City continues to deliver on its core mandate and identified priorities and principles, achieve its developmental goals and entails prioritising all available resources towards essential services and contractual financial commitments.

The refinement of the proposed 2011/12 Adjustments Budget, will essentially be modelled into the broader context of the city's Long-term Financial Model, informing the 2012/13 Medium-term Revenue and Expenditure Framework. The 2011/12 Adjustments Budget is in fact laying the base for a new long term era in budgeting strategy with significant indicators such as infrastructure development and recovery.

Detail information regarding the changes as well as the adjustments affected with regard to internal and external funding contained in the 2011/12 Adjustments Budget is available in the Mayoral report overview and other chapters of this document.

The above table indicates a total operating revenue (excluding capital transfers and contributions) of R17 904,1 million for the 2011/12 Adjustments Budget, that is an increase of 0,07% compared to the approved 2011/12 amount of R17 891,8 million. The revenue (including capital transfers and contributions) amounts to R19 316,6 million for the 2011/12 Adjustments Budget, that is 1,3% higher compared to the original amount of R19 066,4 million.

The only adjustments worth mentioning relates to service charges (sanitation increased with R15,0 million and electricity increased with R180,0 million) in order to align the revenue to the performance trends of the first four months of the financial year. Included in the increase in electricity revenue is an amount of R60,0 million which relates to the sale of electricity to Eskom.

The following table reflect the approved 2011/12 MTREF, the proposed 2011/12 Adjustments Budget (expenditure by type) and the subsequent outer years:

The total adjusted operating expenditure amounts to R18 051,3 million, which amounts to an increase of R172,2 million (1%) compared to the original approved amount (R17 879,1 million). The 2011/12 adjusted surplus amounts to R1 265,3 million that is R78,1 million higher compared to the original approved surplus of R1 187,2 million.

Employee related costs decreased with R69,6 million mainly owing to pension fund contributions for the directly contracted employees only being applicable from the 2012/13 financial year. Debt impairment was increased with an amount of R11,4 million to be aligned with the increase in service charges and property rates. The strategy towards the writing off of irrecoverable debt will have to be reconsidered and it is proposed that irrecoverable debt be written-off each financial year to ensure that the asset value is not overstated in the Statement of Financial Position. Depreciation and asset impairment was increased with R182,6 million owing to the verification and purification of the asset register and the implementation of GRAP17. Bulk purchases was increased with R115,0 million to align the expenditure with the performance trend of the first four months of the financial year. Finance charges was decreased with R64,3 million owing to the expected decrease in interest to be paid on external loans. Contracted services has decreased with R40,2 million, and other expenditure has increased with R15,4 million.

A capital budget to the amount of R3 185,4 million was approved by Council for the 2011/12 financial year and is funded from inter alia loans/bonds to the amount of R1,5 billion which has not been adjusted. The capital budget has increased with a total amount of R218,2 million which is mainly attributed to external funding (ie grants). The total adjusted capital budget therefore amounts to R3 403,6 million. It should be noted that the outer years have not been amended as the adjustments do not impact on the subsequent years.

The detail of the changes made to the Capital Budget per department is contained in Table SB19.

The above table is a summary of the adjustments which amongst others relate to an increase in funding mainly with regard to the Public Transport Infrastructure Systems Grant, Government Housing Grant, Community Library Services Grant, Neighbourhood Development Partnership Grant, Energy Efficiency Demand Side Management Grant, as well as a grant from the Department of Water Affairs.

The following graph illustrates the 2011/12 Adjusted Capital budget per strategic objective:

**Figure 1: Adjusted Capital budget per strategic objective**

The following summarises the adjusted SDBIP performance objectives:

- Transport and Roads: Roads and Storm Water

The Sub-function Roads Maintained should be re-named to Roads Rehabilitated, as road maintenance are funded from operating expenditure and the rehabilitation of roads are funded from capital expenditure. The following deliverable projections were affected:

- Backlogs in roads increased from 38km to 42km.
- New roads for growth increased from none to 5,5km.
- Resurfaced/rehabilitated roads reduced from 114km to 60km.

The requirements by the Department of Water Affairs that Water Use Licences (WUL) have to be acquired for all storm water projects, have impacted negatively on these projects. Therefore, a substantial reduction in targets for these projects from the 2010/11 financial year occurred and consequently had to be reduced again. The following deliverable projections were affected:

- Storm water backlogs reduced from 59km to 39km.
- New storm water pipelines increased from none to 1km.

• Public Works and Infrastructure Development: Water and Sanitation

Due to urgent requirements, project delays, etc. the Division is often forced to make adjustments and transfer funds which directly impacts on the deliverable projections, in order to achieve targets and have maximum capital budget expenditure by the end of a financial year. The following deliverable projections were affected:

- Household water connection decreased by 900.
- New water pipelines increased by 60 000m.
- Upgrading existing water pipelines decreased by 45 000m.
- Household sanitation connections decreased by 700.
- New sewer pipelines decreased by 20 500m.
- Upgrading existing sewer pipelines increased by 6000m.

• Public Works and Infrastructure Development: Electricity

Sub-function - Provide higher levels of electricity

Houses electrified to eradicate backlogs

Target reduced from 12 000 to 6 000 households. The electrification of low costs houses is done in conjunction with the Housing and Sustainable Human Settlement Development Department. The target is based on the top structure houses made available by the Housing and Sustainable Human Settlement Development Department for electrification.

Sub-function - New Connections

Completed and occupied houses electrified to cater for growth.

Target increased from 600 to 1 818 households. The KPI is entirely application driven and depends on the customers applying for connections. The target is set based on the previous history.

Sub-function – Demand side management

The number of street- and traffic lights retrofitted with energy saving lights increased from 1 500 to 13 150. This target was revised to be consistent with the revised KPI target to concentrate on energy efficiency.

Sub-function - Generate electricity to support the load demand

Net kWh generated as a proportion of the total KWH demanded.

Target reduced from 775 506 000 to 544 337 100 KWh to be generated. Own Power Station generations contributes an estimated 9% of the total City electricity demand, if they are operated on full capacity. Their contribution will remain almost constant because the capacity cannot be increased, but with the rising cost of electricity through Eskom purchases the power stations will absorb the impact of rising electricity cost, especially during the high demand season and load shedding.

Sub-function - Distribute electricity according to demand  
kWh purchased from Eskom.

Based on purchases from Eskom in the previous financial year, the target was reduced from R14,0 billion KWh to R9,2 billion KWh.

Sub-function - Provide public lighting

New street lights as per ward.

Target increased from 2 000 to 3 010 per ward. The target has always been exceeded on the streetlights.

Sub-function - Provide public lighting

High masts lights per ward.

The amount of high mast lights used to be low for several years, owing to challenges with tenders. Currently the tender is in place and the target for the current three year cycle has increased from 15 to 30 high masts.

Sub-function - Maintain electricity infrastructure

Electricity repairs and maintenance.

Unchanged target of 8%.

The 2011/12 Adjustments budget is funded in terms of the National Treasury funding compliance assessment however a risk is evident owing to inter alia the incorporation of the former Metsweding District Municipality, Nokeng-tsa-Taemane and Kungwini Local Municipalities and accompanying responsibilities. It is furthermore of essence that the community pay for services rendered diligently to assist the CoT in honouring its constitutional obligations and continue with the rendering of services in a sustainable manner.

## PART 2 (SUPPORTING DOCUMENTATION)

### 2.1 Adjustments to budget assumptions

---

The CoT utilises the Long-term Financial Model (LTFM) to inform the compilation of the Medium-term Revenue and Expenditure Framework with the emphasis on affordability and long-term sustainability. One of the salient features of the LTFM is the attentiveness to ultimate sustainability, not only from a municipal finance perspective, but also relating to service delivery. This model takes into consideration ie CPI, debt collection rate, employee related cost, financial ratios, etc to ensure sustainability and goal orientated service delivery. It is of utmost importance that the outcome of the LTFM be adhered to at all cost to ensure the long-term sustainability of the CoT and the continuation of affordable services to the community. In addition to this, NT developed the Funding Compliance Assessment procedure to enable municipalities to assess whether their budgets are funded.

The budget assumptions presented in the 2011/12 MTREF remains unchanged.

## 2.2 Adjustments to budget funding

In terms of Section 18 of the MFMA an annual budget may only be funded from realistically anticipated revenues to be collected, cash-backed accumulated funds from previous year's surpluses and borrowed funds for funding of the capital budget. Furthermore the revenue projections must be realistic taking into account projected revenue for the current year and actual revenue collected in the previous financial year. These requirements as well as other budget principles guided the 2011/12 Adjustments Budget process.

A process of data purification and verification based on the performance trends over the past two to three financial years was undertaken.

The following transactions were affected:

- Clearance certificates – increased with R607 600;
- Weigh-bridge fees – increased with R11 700;
- Training fees – increased with R172 500;
- Fines – increased with R1 005 000;
- Licences: Public vehicles – decreased with R5 103 300;
- Township development contributions: Consent use – increased with R501 700;
- Bulk containers and landfill sites – decreased with R18 764 500 and R5 001 100 respectively;
- Rental sidings – increased with R20 000;
- Transport fees – decreased with R12 689 500;
- Rental – increased with R11 000;
- Lost assets: Monies – increased with R15 600;
- Rental facilities – increased with R2 000;
- Rental offices – increased with R10 000;
- Rental sundries – increased with R8 000;
- Sundry fees – increased with R134 000;
- Prepaid Upgrade – increased with R50 000;
- Connection Fees – decreased with R40 262 900;
- Replacement of Meters – increased with R10 000 000;
- Reconnection Fees – decreased with R55 933 700;
- Sewerage Fees: Industrial – increased with R4 515 000;
- Donations: Workshops – increased with R911 404;
- Interest on Housing – decreased with R10 769 700;
- Crèche fees – increased with R656 000; and
- Interest on property – decreased with R3 390 100.

The capital budget funded from loans/bonds for the 2011/12 financial year amounts to R1,5 billion. The Council approved that this amount be obtained from the Capital Market by means of a bond issue.

The following table indicates the breakdown of the capital budget per funding source ensuring that the adjusted capital budget remains funded:

To ensure sound financial management and sustainability over the medium to long term the belt tightening intervention initiatives that was implemented during the 2009/10 financial year will continue in the 2011/12 financial year. These intervention initiatives will assist in the implementation of the CoT strategy towards reserves cash backing. Continuing with the intervention initiatives and the determination to be successful in overcoming the financial challenges, the CoT is aiming to achieve a positive bank balance of approximately R150,0 million on 30 June 2012.

The purpose of a strategy towards cash backing is to have separate investments (including interest earned on these investments) earmarked for specific future indefinite liabilities that may amongst other provide funding for capital reserves and provisions and repayment of conditional grants received but not spend. A phased-in approach should be followed and managed according to mid-year and year-end available resources.

Cash received from operating activities are utilised to provide working capital and to temporarily fund capital expenditure in advance of external loan draw-downs. Operational cash-flow deficits and surpluses are forecasted and managed on a daily basis within available cash resources and banking facilities.

The funding compliance test is paramount to financial sustainability (refer Table B8 – Cash backed reserves/accumulated surplus reconciliation) and the cash backing needs amount to R260,2 million, R248,8 million and R248,8 million for the 2011/12, 2012/13 and 2013/14 financial years respectively.

The outcome of the LTFM indicates a cash-flow surplus of R1 183,8 million, R1 981,0 million and R3 089,5 million for the 2011/12, 2012/13 and 2013/14 financial years respectively (refer Table B7 – Budgeted Cash-flow).

The following remarks regarding adjustments/no adjustments need to be noted:

- The rate of revenue collection currently amounts to 94% and the risk in this regard will be mitigated owing to the aggressive collection strategies (initiatives) that the CoT has embarked on. The rate will be re-assessed with the compilation of the 2012/13 MTREF.
- The CoT currently has no contracts awarded that impose financial obligations on the municipality beyond the three years covered in the 2011/12 adjusted MTREF.
- The loan amount of R1,5 billion approved for the 2011/12 MTREF remains unchanged.

### 2.3 Adjustments to expenditure on allocations and grant programmes

The following adjustments were affected with regards to operating grants and subsidies:

- The General Fuel Levy was decreased with an amount of R94 488 000 to align the MTREF to the DoRA.
- An amount of R250 576 was included in the Adjustments Budget for the Finance Management Grant as a roll-over was approved by National Treasury.
- A grant to the amount of R423 000 was included for the HIV and AIDS Grant for the door-to-door AIDS Education Programme.
- An amount of R15 597 000 of the Water Service Operating Subsidy was transferred from the operational budget to the capital budget for the refurbishment of the Ikangala Wastewater Treatment Works, and an amount of R18 000 was included in the operational budget for Human Resources in terms of Transfer Agreement 37.
- An accreditation grant to the amount of R962 527 was included.
- An amount of R20 000 000 to be received from the Provincial Government to fund some of the operational requirements that emanated from the incorporation of the Metsweding Municipalities was included.
- The following operational grants were included in the 2011/12 Adjustments Budget:
  - Blue Bulls Company (R15 000) for damage to the stadium seats that was incurred during the FIFA World Cup; and
  - Drakensberg Promotions (R136 082) for Culture events.
- An amount of R5 600 000 was received in terms of the Provincial Gazette for the Community Libraries in Kungwini and Nokeng. An amount of R380 000 was also transferred to the capital budget for the purchase of equipment and furniture.
- An amount of R8 040 000 was received from the National Department of Public Works and an External Service Sponsor for the following purposes:
  - R7 000 000 for the appointment of a service provider for the precinct master plan; and
  - R1 040 000 for the hosting of the Inner City Seminar.
- An amount of R15 057 000 of the Public Transport Infrastructure Grant was transferred from the operating budget to the capital budget to be utilised for the Bus Rapid Transport Project.
- An amount of R18 000 was included for the Water Service Operating Subsidy.

The following adjustments were affected with regards to capital grants and subsidies:

- Public Transport Infrastructure Systems Grant (PTIS)

National Treasury approved a roll-over to the amount of R100 000 000 million for the Public Transport Infrastructure Systems Grant (PTIS) which was unspent during the 2010/11 financial year. Furthermore an amount of R15 057 000 was transferred from the Operating Budget to fund capital related expenditure.

- Neighbourhood Development Partnership Grant (NDPG)

An amount of R37 861 813 relates to an increase in the Neighbourhood Development Partnership Grant.

- Energy Efficiency Demand Side Management Grant (EEDSM)

National Treasury approved a roll-over to the amount of R2 531 158 which was unspent during the 2010/11 financial year. Furthermore, an additional amount of R19 000 000 was received and included in the Adjustments Budget.

- Municipal Finance Management Grant (FMG)

National Treasury approved a roll-over to the amount of R304 047 which was unspent during the 2010/11 financial year. This funding will be utilised for the purchase of office furniture and equipment.

- Community Library Services

An amount of R5 980 000 was allocated for the purchase of furniture and equipment for Community Libraries.

- Other Grants

The Provincial Department of Sports, Recreation, Arts, and Culture contributed an amount of R515 977 towards the HM Pitje project for the rehabilitation of the balustrades.

- Department of Water Affairs (DWA)

An amount of R15 597 000 was allocated by the Department of Water Affairs for the refurbishment of the Ikangala Waste Water Treatment Works.

- Government Housing – Social Infrastructure Grant

An amount of R339 839 is a roll-over of the accreditation fund which were included for the purchase of furniture and various systems. Furthermore, an amount of R38 468 160 was transferred by the Provincial Department of Local Government and Housing for the acquisition of land to develop Thorntree View. In addition an amount of R2 293 422 was transferred by the Delft Municipality for the development of 200 housing units in Mamelodi.

## 2.7 Adjustments to capital expenditure

---

The 2011/12 Adjusted Capital Budget amounts to R3 403,6 million compared to the approved 2011/12 Capital budget of R3 185,4 million, that is an increase of R218,2 million.

The adjustments relate to an increase in funding mainly with regard to the Public Transport Infrastructure Systems Grant, Government Housing Grant, Community Library Services Grant, Neighbourhood Development Partnership Grant, Energy Efficiency Demand Side Management Grant, as well as a grant from the Department of Water Affairs. In terms of section 20(2) of the Division of Revenue Act, 2011 (Act 1 of 2011) National Treasury granted an approval to retain an amount of R103,2 million. Furthermore, an amount of R38,0 million was transferred by the Department of Local Government and Housing to the CoT for the acquisition of land.

An amount of R82,3 million was transferred (R81,3 million from Transport and Roads and R1,0 million from Economic Development). An amount of R62,3 million of this transfer was allocated to the Corporate and Shared Services Department of which R60,0 million is for the funding of various IT related projects and R2,3 million for the Business Planning and Consolidation (BPC) project (the transferred funds will be re-allocated to the Transport and Roads Department for finalisation of the projects early in the 2012/13 financial year). Furthermore an amount of R250 000 was allocated to the Office of the Executive Mayor, Chief Whip, Speaker and City Manager for the purchase of furniture. The remainder of the saving will assist with cash-flow challenges.

The following is a graphical presentation of the 2011/12 Adjusted Capital Budget per department:
